## MIAMI EQUALED BY FEW COPPER MINES

Now Has One Of Greatest Ore Bodies Although Opened Onto To the Third Level

We now have blocked out on three levels of the Miami mine, 4,500,000 tons of ore, and estimate there are 2,250,000 tons additional near the ends of the various drifts and crosscuts; or a total of 6,750,000 tons of ore of which are approximately assured.

This ore body has been opened 100 feet in length, 700 feet in width and 400 feet vertically.

The Miami is already one of the largest copper mines in the world, and the limits of the ore body have not been reached, the headings being still in the third level.

This is the statement made by J. Parker Channing, consulting engineer for the Miami Copper company, to a representative of the Silver Belt, last night at the Dominion hotel. Mr. Channing has been here for the past two weeks and in that time he has made a thorough examination of the company's mine, and as he himself admits, the figures representing the dimensions of the ore body and probable tonnage of ore as at present developed, are very conservative.

The cutting of a station at a depth of 375 feet in the shaft has been commenced. As the shaft and station are in ore at that depth it is safe to assume that with the progress of development on this new level, the tonnage of ore in sight will steadily increase.

The copper is found in the form of sulphide disseminated through the decomposed Pinal schist, and as Mr. Channing stated in a report made last March to Adolph Lewisohn, president of the Miami Copper company, the ore deposit is a nature similar to those of the Arizona Copper company, the Nevada Consolidated, Utah Copper and Boston Consolidated companies, the ore readily yielding a high grade concentrate by water treatment, which can be easily smelted. However, the Miami ore carries more than 3 per cent copper, while the ores of the above mentioned companies do not average much better than 2 per cent copper.

As shown by concentrating tests made some time ago the ore can be readily concentrated to 10 to 1 and 40 pounds of copper be recovered by smelting. However, more recent tests have given better results. Mr. Williams has been trying on tests for the past three months, at the mine, and the results have been very satisfactory.

Mr. Channing informs us that these and other tests indicate that a saving of at least 30 per cent, or 48 or 50 cents of copper to the ton of ore, can be effected, and it is estimated that the

## OUR DELEGATE HOME FROM DALLAS

Floyd Blevins Comes Back From Elks' Convention With Elegant Collection of Fine Badges.

Floyd Blevins, delegate from the local lodge to the session of the grand lodge of the Benevolent and Protective Order of Elks, at Dallas, returned home Sunday night with an elegant collection of Elks badges and a stupendous number of reminiscences, among which is that of a rattling good time in the Texas town.

Mr. Blevins left here with 300 copper badges of artistic design, as already described in the Silver Belt, and he reports that these were the handsomest to be found at the convention. He traded all of them off for badges from various parts of the country, and the collection will be mounted in a frame and placed on exhibition for the gratification of the local public.

On the way to Dallas, Mr. Blevins was the guest of the Los Angeles delegation (which traveled in a special car, and he votes the "Los" bunch capital entertainers, even among Elks. The Los Angeles delegates dispersed after the convention, going to visit various cities before returning home.

## PUBLIC LECTURE TO BE GIVEN BY W. O. W.

DEPUTY ORGANIZER ADDRESSES ENTHUSIASTIC MEETING OF POPULAR ORDER.

Strong Camp Will Make Vigorous Campaign for Larger Membership and a Lecture by District Deputy Morrow Will Mark Beginning of Canvass.

An enthusiastic meeting of the Woodmen of the World was held in the office of Superintendent Keltner at the court house last evening.

The object of the meeting was to discuss ways and means of increasing the membership of the local lodge. Mr. Morrow, deputy organizer for Arizona, has been invited to begin a campaign in Globe, and the meeting last night decided to give hearty co-operation towards forming a banner lodge in this city.

It was decided to give a public lecture at the court house on Friday evening to be delivered by Mr. Morrow, who is a well known lecturer in this territory, as well as in his own state of Texas.

Public invitations will be distributed announcing the lecture, which is to be free of charge.

## HUGHES WILL OPEN CAMPAIGN. YOUNGSTOWN, July 20.—Governor Hughes sent a message saying that he would accept the invitation to open the republican campaign here September 5.

## DR. CLAYPOOL'S FUNERAL TODAY

The funeral of Dr. S. B. Claypool, who was found dead at Indian Hot Springs Saturday morning, will be held at 2:30 o'clock this afternoon from the mortuary parlors of F. L. Jones & Son, under the auspices of the local lodge of the B. P. O. E., of which Dr. Claypool was a member. The body was brought to Globe Sunday evening.

## RABID COYOTE IS KILLED AFTER BITING MEN

SNIPPED OUT-DOOR SLEEPERS AND ENTERED HOUSE NEXT DAY IN BOLD ATTACK.

Sherman Krump Bitten Through Nose and Ed Dowdle Caught on Hand, Are Preparing to Go to Pasteur Institute for Hydrophobia Treatment.

Ed Dowdle and Sherman Krump of Safford bitten by a rabid coyote last Saturday night, are making preparations to go to a Pasteur institute either at Chicago or in Texas.

The men, while out buying cattle, had camped in the neighborhood of Bartley's Mills, eighteen miles north of Babin, and were sleeping outdoors when the animal attacked them. Krump was bitten through the nose and on the face, after which the coyote was driven off. But a little while later, the coyote returned and caught Dowdle by the hair, apparently trying to drag him off. He threw up his hand to protect himself and was painfully bitten.

The coyote, evidently suffering with hydrophobia, returned the next day, and boldly entering the house, attacked the young men again, but this time it was speedily killed.

## CONTEMPT OF SUPREME COURT CHARGE AGAINST LABOR LEADERS

BUCK STOVE & RANGE COMPANY ALLEGES OPEN DEFIANCE OF COURT'S INJUNCTION PROHIBITING NATIONAL BOYCOTT.

WASHINGTON, July 20.—In the Buck Stove & Range case, Justice Sanderford of the supreme court, today summoned Samuel Gompers, the president of the American Federation of Labor, Secretary Frank Morrison of the same organization, and John Mitchell of the executive council and former president of the United Mine Workers of America, to appear in court, September 8, next, to show why they should not be punished for contempt of the court's injunction order.

The citation is based on the petition of the Buck Stove & Range company of St. Louis, which alleges that the order issued by Justice Gould, forbidding a national boycott by the American Federation of Labor, has been violated by public utterances and addresses of the three labor leaders named.

It is also stated that Gompers caused to be published in the Federationist, the official organ of the federation, certain articles reflecting upon the court's decision and in alleged open defiance in printing the name of the Buck Stove & Range company in "We don't patronize."

John Mitchell of the United Mine Workers, last January, put to a vote a resolution imposing a fine of \$5 on any member of the organization who purchased a stove or range of that company's make.

## LEAP FROM AUTO AT BRINK OF PRECIPICE

REPUBLICAN LEADERS HAVE A THRILLING ESCAPE WHILE TOURING ROCKIES.

CAR GOES CRASHING TO ROCKS BELOW WITH CHAUFFEUR. ONLY BRUISED.

Hitchcock and Other Big Guns Rushing Behind Wrecked Machine in Two Other Autos Narrowly Avert Collision at Edge of Cliff.

COLORADO SPRINGS, Colo., July 20.—The first session of the republican leaders with Chairman Hitchcock of the national committee, opened at 2 p. m. today, and continued until nearly 8 p. m.

## EAGLES AND THE WOODMEN WIN GAMES

KNIGHTS PUT UP GALLANT FIGHT BUT LOSE OUT AGAINST BETTER TEAM WORK.

Elks Go to Pieces Through Illness of Pitcher Stewart and Fans Soon Desert Grand Stand, Leaving Only Score to Chronicle Sad Finish.

Eagles 3, Knights 1. Woodmen 16, Elks 7.

The foregoing summary tells the story of Sunday's double header baseball game.

The first game was a dandy, the Knights holding the redoubtable Eagles down until the sixth inning, when the heavy team work of the birds began to tell and the result became inevitable. The grand stand was well filled with both fans and "fannies," and enthusiasm was at a high pitch, adherents of both teams being represented in about equal numbers and rooting cheerfully for their favorites.

But the second game—cut short the sad, and story!

The choppers whittled it out for five runs at the very start. Stewart of the Elks was sick, and the Woodmen gave him the axe good and plenty. That demoralized the team to such an extent that the game became a farce and the grand stand was soon deserted. At the end of the game, there was nobody but the wire screen except the scorer, and he was growling.

Still, in spite of the slowness of the second game, it served to show considerable "waking up" on the part of the Woodmen, and, all things considered, it is safe to predict that another encounter between the teams will be a revelation to the fans.

The game also brought out a dark horse for the Eagles in Gene Shute, whose pitching was a surprise to even his own team.

Owing to the accident of last Sunday's game, in which Second Baseman Altwies was so rudely despoiled, the management had provided a barrel for the use of any embarrassed player, but the emergency did not present itself, and the barrel is still on hand.

## MURDER AND SUICIDE.

VICTOR, Colo., July 20.—Charles Wilhelm, for a long time resident of this district, shot and killed his wife this evening, and then turned the gun on himself, blowing off the top of his head. Domestic troubles are said to be the cause.

## SAUCY LONDON BOBBIES.

LONDON, July 20.—The City of London police team, which won the Olympic tug of war, has issued a challenge for a match with the American team members, both teams to be in stocking feet, or in any way the Americans prefer, the match to be for love or money.

## YOUNG TURKEY IS BEATING SULTAN

VIENNA, July 20.—The "Young Turkey" faction, according to the New Prese Press correspondent at Monastir, European Turkey, has gained control of the entire third army corps and part of the second army corps. The revolution committee at Monastir has assumed control and the local authorities are powerless, almost the whole population having joined the movement.

## McMILLEN STOCK SUBSCRIPTION

Ten Thousand Shares to Be Offered to the People of Globe—List Opens This Morning.

As a number of inquiries have been received by the McMillen Silver Mining company from local people wanting to purchase stock, the board of directors have decided to give the people of Globe the opportunity to subscribe for 10,000 shares of the McMillen Silver Mining company.

The subscription list will be opened at the Gila Valley bank this morning and will be closed on the following day (Wednesday) at 3 o'clock p. m., which will afford those desiring stock ample time to hand in their subscriptions.

The McMillen Silver Mining company owns 32 claims at McMillen, 21 miles east of Globe, including the famous Stonewall Jackson mine and the old Hannibal Mining company's property. These two companies, organized in 1876, were each capitalized for \$10,000,000, and the Stonewall Jackson proved to be one of the richest silver mines in Arizona, having produced \$1,000,000, nearly all of which was taken out above the 300-foot level. The average width of the ledge is about 40 feet, although in places it exceeds 100 feet, and carries good values in silver, which can be successfully recovered by cyaniding.

The property is capitalized for \$1,000,000, of which only \$100,000 is to be issued and by agreement the large holders will place their stock in escrow to be held until October 8, 1909, thus giving those who subscribe now assurance that no stock of the company will be offered at a price less than \$1 per share.

## TERRITORIAL FAIR IS ALREADY STARTED

FIRST MEETING HELD AND ALL PLANS ARE SHAPING UP FOR FESTIVAL.

Racing Promises to Be Most Interesting Ever Seen at One of These Gatherings—Big Purse Will Attract Fast Horses—Air Show Will Fly.

PHOENIX, Ariz., July 20.—The dates for the next Arizona territorial fair have been set for November 9 to 14, inclusive. The commissioners, J. C. Adams, B. A. Packard and H. C. Lockett have held one preliminary meeting, the secretary, R. A. Kirk, has opened offices in the Adams hotel and preparations are well under way to make the fourth annual territorial fair the best and most attractive ever held west of the Mississippi river.

The racing events will be as usual be one of the big features of the fair and the number and class of the entries promises to be larger and better than usual, owing to the fact that bigger purses are to be offered. There will be the usual class events for trotters and pacers for purses of \$1,000, and there will also be a free-for-all trot and a free-for-all pace for which the commissioners have offered purses of \$2,000 each. These events will undoubtedly attract the best horses from all of the racing circuits, especially when it is realized that the purses hung up by most of the associations range from \$300 to \$600.

It is the intention of the commissioners to provide for many varied and unusual attractions for fair week, principal of which will be the most up-to-date and successful air ship in existence today. Fights of the air ship will be given daily and this attraction will without doubt prove one of the most interesting and instructive exhibitions of the big fair.

The exhibits for the forthcoming fair promise to be bigger and more attractive than ever as even at this early date many applications have been received for space in the several departments.

## HILL FAVORS INCREASE.

NEW YORK, July 20.—J. J. Hill has expressed the opinion that an increase of rates is the only way in which the railroads can rise to the financial situation confronting them.

## Lots of Trouble in Obtaining a Marriage License

"I want a marriage license, please," was the whispered request of a tall individual at the court house yesterday.

Requests of that character are generally whispered, but this time the "whisperer" was County Recorder Ed Stewart, and the desired paper was not forthcoming.

"I'm the recorder; go across the way," he answered politely.

"I know; I can read that sign, but don't you record the licenses?"

"No; across the way."

"Will you please give me a marriage license?" asked the stranger again, this time of Assessor Bob Merritt, next door.

"You want—what?"

"Wanter marry."

"Oh, here, I take care of assessments," and Merritt kindly led the unsophisticated one to Probate Judge Robertson.

## MINERS DISCUSS SOCIALISM AND CRAFT UNIONISM

RESOLUTION DECLARES AGAINST POLITICAL AFFILIATION—BRINGS MUCH TALK.

DEBATE ASSUMES WIDE RANGE AND DENVER CONVENTION ADJOURNS WITHOUT ACTION.

Preamble to Constitution Must Be Changed Before Resolution Can Be Adopted—Study of Socialism Is Recommended to Members.

DENVER, July 20.—The Western Federation of Miners, in vention, spent the entire day discussing the industrial unionism question, and adjourned without having taken definite action. During the day discussion assumed a wide range, including socialism, unionism, crafts and all kindred subjects.

The preamble of the constitution of the organization declares that the industrial union, the concerted political action of all wage workers, the only method of attaining the emancipation of the working class. Today the discussion of these subjects arose over a resolution, one section of which reads as follows: "That marshalling workmen from every department of industry, under the banner of one organization that recognizes the fact that injury to one is injury to all, the concern of one life concern of all, that the working class must get together in an economic organization, the purposes of which are to control the machines of production and the means of distribution, regardless of political affiliations of any kind."

This paragraph declares against political affiliation. Should it be adopted, then a concentrated effort will be made to change the preamble. The organization never adopted any political faith, but it recommended the subject of socialism to the membership for study.

Many socialists today fought against the adoption of any political resolution on the ground that it did no good, and embittered the membership. Last year the convention ordered the executive board to secure, if possible, a conference with the representatives of all labor organizations with a view to uniting under one banner the industrial workers of the world. After the convention, many local unions protested and the conferences were never held. In today's discussion the subject taken up became part of a general debate, but no definite position as to affiliation with any organization was taken.

The Miners' magazine has been conducted as a socialist paper under the present editorship, and some conservative delegates took occasion today to bring that into the debate. They declared its pages should be devoted to publishing such articles as pertained to the organization only, and not forward the beliefs of any party. So urgent was this that a committee will investigate and report a series of resolutions setting forth how the magazine shall be edited in the future.

This general discussion including as it does all general subjects so vital to the organization, will probably consume the greater portion of the week, and until the convention gets down to adopting resolutions, it is impossible to foretell the outcome. There is no opposition to President Meyer and doubtless he will be re-elected by acclamation. This will be his seventh consecutive term.

An amendment was offered to the constitution this afternoon which provides that no member of the organization shall serve in the militia unless called upon by the governor.

## REV. WILLIAMS IS SOON TO COME TO GLOBE

SIGNED CONTRACT WITH FIRST BAPTIST CHURCH AND IS NOW RESTING.

Rev. R. D. Latter Will Hold Pulpit Until Coming of Pastor, Who Is at Beach Resort for Vacation Before Taking Charge of Local Church.

Rev. D. C. Williams, for five years pastor of the First Baptist church at Tucson, has signed a contract with the local First Baptist church and will assume his charge about September 1. Rev. Williams has been filling the pulpit of the local church for several weeks and it had been generally understood that he would be offered the pastorate. However, negotiations were not closed until last week. In the meantime Rev. Williams will go with his family to California, where he will spend a month in recreation before moving from Tucson to Globe.

Until the time when Rev. Williams takes his place in the local church, Rev. R. D. Latter, territorial colporteur for the Baptists, will occupy the local pulpit. Rev. Latter is well known to the church-goers of Globe, having preached here on previous occasions, and will undoubtedly be welcomed by his congregation.

## RAILROAD IS READY FOR CROWDS ON 24TH

REGULAR TRAIN TO BE MADE UP IN TWO SECTIONS AND A SPECIAL RATE FOR DAY.

Second Section Will Be Held One Hour Later Than Usual Train Time at Safford, Giving All Chance to See Celebration Finish.

The Gila Valley, Globe & Northern has completed its preparations for handling the crowds to the Pioneer celebration at Safford, July 24, and it is announced that there will be ample accommodation for all who propose to enjoy the festival.

The regular train, leaving here at the usual hour, will be made up in two sections, and on the return trip, the second section will be held at Safford one hour later than the usual train time, giving everybody plenty of time to see the finish of the big celebration.

A rate of \$2 for the day has been made, and it is expected that there will be a large number of people from here going to Safford for the 24th.

## CAVALRY CALLED OUT IN IRON REGION

SHOOTING GOING ON THROUGH ALABAMA STRIKE DISTRICT, BUT NO OUTBREAK.

Governor Comer Stations Troops at Birmingham Whence They Can Quickly Be Distributed to Any of the Several Mines Where Trouble Is Going On.

BIRMINGHAM, July 20.—Governor Comer today ordered the Alabama cavalry at Camp Montgomery to proceed to Birmingham at once, and the men, \$200 strong, arrived tonight. The action of the governor is precautionary, and the men will be here in readiness for distribution to various points in the country in case of further trouble as a result of the miners' strike.

Reports from the various mining camps early tonight are to the effect that everything has been quiet today. There was considerable desultory shooting in various sections, however, and a feeling of unrest prevails in all the camps, but no outbreak has been reported.

## WEATHER BULLETIN.

For Arizona: Fair Tuesday and Wednesday.

## Negro Pastor In Jail for Incest Advises Whites

R. H. Ellison, the negro who was formerly pastor of the Bone street Baptist church, was given a hearing yesterday before Justice Hinson Thomas on a charge of incest with his sister. The case was taken under advisement until today.

From his cell, Ellison has written a long appeal to the "white people," which he has asked the Silver Belt to publish. He advises that "low down negroes" be driven out of town and suggests that it might not be inadvisable to whip some of them, adding that he "don't care who it is."

## PRINCE OF WALES IS COMING ACROSS

QUEBEC, July 20.—The British battleship Indomitable, having the Prince of Wales aboard, came in wireless touch today with the British authorities here.

She entered the Gulf of St. Lawrence early this morning, when estimated to be 600 miles from Quebec. She sailed last Tuesday and evidently made a fast trip over from England, perhaps exceeding the record time for a battleship passage. The landing of the prince is expected for Wednesday.

## O SHAH SCRAPPING AGAIN!

ST. PETERSBURG, July 20.—A dispatch from Tahriz says that as a result of the Shah's refusal to remove Mulla, heavy rifle cannon fire began, this afternoon between the revolutionists and the Shah's supporters.
